Re: KEBR, Arden-Arcade, CA
Family Stations, Inc.
Facility ID Number 20930
File Number BMJP-20051031AEN

Dear Counsel:

This letter is in reference to the above-captioned AM Auction No. 84 application.

Part E of the *Instructions for FCC 301*, entitled Section III-A (AM Engineering), sets forth in detail the data and exhibits that must accompany an FCC 301 application for a new station or for a major change in an existing station. A preliminary review of the above-captioned application shows that it does not contain all of the required data and exhibits. Since the application does not contain all of the required items, the staff cannot process the application.

In the table below, we have identified the data and exhibits that are missing from the above-captioned application and must be provided before processing of the application can commence:

	Required Exhibit Description
	1. Directional antenna radiation patterns and tabulations (See Section E, Item 7 of Instructions for FCC 301)
	2. Antenna site plat showing tower(s) and all required items (See Section E, Item 7 of Instructions for FCC 301)
	3. Antenna site map with geographic coordinate markings and map margins sufficient to verify antenna location (See Section E, Item 7 of Instructions for FCC 301)
	4. Aerial photographs (See Section E, Item 7 of Instructions for FCC 301)
	5. Coverage map for each proposed mode of operation (See Section E, Item 7 of Instructions for FCC 301)
X	6. Principal community coverage showing for each proposed mode of operation (See Section E, Items 7 and 8 of Instructions for FCC 301)
	7. Allocation study containing both tabulations and maps for each proposed mode of operation (See Section E, Item 10 of Instructions for FCC 301)

Further action on the subject application will be withheld until the applicant submits all of the required exhibits. However, if the applicant fails to amend the application to supply the required exhibits within 30 days from the date of this letter, the application will be dismissed pursuant to 47 CFR Section 73.3568(a)(1) with no further opportunity for amendment. Please note that any amendment must be signed and filed in the same manner as the original application.

Sincerely,

A handwritten signature in black ink, appearing to read "Susan N. Crawford".
